10	Known Information Gaps

1. Company Overview

Amahoro Tech Services Ltd is a fictional technology services company based in Kigali, Rwanda. The company provides software development, system integration, technical support, and business automation services for schools, SMEs, and professional service firms.

The company office is located at Kigali Innovation Plaza, 3rd Floor, KG 12 Avenue, Kigali. The main support email is support@amahorotech.example and the general phone line is +250 790 000 111.

The normal business language is English. Kinyarwanda may be used for customer support when the client prefers it. Official contracts, policies, and technical handover notes must be written in English.

1.1 Company Values

- Reliability: deliver stable systems and respond to issues within agreed service levels.
- Clarity: communicate technical work in simple business language.
- Security: protect client information and internal credentials.
- Continuous improvement: update procedures when knowledge gaps are found.

2. Working Hours and Attendance

Standard working hours are Monday to Friday, from 8:30 AM to 5:30 PM Central Africa Time. The lunch break is from 1:00 PM to 2:00 PM. Employees are expected to be reachable during core collaboration hours from 10:00 AM to 4:00 PM.

A normal working week is 40 hours. Overtime must be approved by the department lead before the work is performed. Unauthorized overtime is not reimbursed or converted into time off.

Employees must notify their line manager by 8:45 AM if they will be late or absent. Repeated lateness without notice may trigger a performance review.

2.1 Public Holidays

The company observes official public holidays in Rwanda. When a public holiday falls on a weekend, the company follows the official government announcement regarding whether an additional day is observed.

3. Leave and Time Off

Full-time employees receive 21 working days of annual leave per calendar year after completing probation. Leave is accrued monthly at a rate of 1.75 working days per completed month.

The probation period for new full-time employees is three months. During probation, employees may request unpaid leave, but paid annual leave is normally not approved except by the Managing Director.

Annual leave requests must be submitted at least 10 working days before the intended start date. Emergency leave may be requested with shorter notice when there is a serious family, medical, or safety reason.

Unused annual leave may be carried forward for a maximum of 5 working days into the next calendar year. Any carried-forward days must be used by 31 March of the following year.

3.1 Sick Leave

Employees receive up to 7 paid sick leave days per calendar year. A medical certificate is required when sick leave exceeds two consecutive working days.

3.2 Maternity and Paternity Leave

Female employees are entitled to 90 calendar days of maternity leave. Male employees are entitled to 5 working days of paternity leave. Requests must be supported by appropriate documentation from a recognized medical facility or civil authority.

4. Remote Work and Equipment

Employees may work remotely up to two days per week with approval from their line manager. Remote work is not automatic; it depends on role requirements, client commitments, and performance reliability.

Remote workers must remain reachable on company communication channels during core collaboration hours. Client meetings must be attended from a quiet environment with reliable internet.

The company may issue laptops, chargers, headsets, or mobile internet devices where the role requires them. Company equipment remains the property of Amahoro Tech Services Ltd and must be returned within 3 working days after employment ends.

Personal use of company laptops is allowed only for light, non-commercial activity that does not create security, licensing, reputational, or productivity risks. Employees may not install cracked software, games, cryptocurrency miners, or unauthorized remote-access tools.

4.1 Equipment Loss or Damage

Loss, theft, or serious damage to company equipment must be reported within 24 hours to the line manager and IT administrator. If negligence is confirmed, the employee may be required to contribute to repair or replacement costs.

5. Expense Reimbursement

Business expenses must be pre-approved by the line manager unless they are urgent client-support expenses. Eligible expenses include approved transport, client-site internet bundles, emergency hardware purchases, and official training materials.

Expense claims must be submitted within 14 calendar days after the expense date. Claims submitted after 14 calendar days may be rejected unless the Finance Manager approves an exception.

Every claim must include a receipt, invoice, mobile money confirmation, or other proof of payment. Claims without proof of payment are not reimbursed.

The standard local transport reimbursement limit within Kigali is RWF 15,000 per day unless a higher amount is pre-approved for client field work.

6. Client Support Policy

Client support requests are classified by severity. Severity determines the response target and escalation path.

Severity	Definition	Response Target	Resolution Target
Critical	Production system is down or payments cannot be processed	30 minutes	4 hours
High	Major function is broken but workaround exists	2 hours	1 business day
Medium	Normal issue affecting one user or one non-critical feature	1 business day	3 business days
Low	Question, cosmetic issue, or improvement request	2 business days	Next planned release where approved

Support tickets must include the client name, affected system, description of the issue, screenshots or logs where available, and the time the issue started. Critical payment-related incidents must be escalated immediately by phone and not only by email.

7. Data Security and Confidentiality

Employees must protect company and client data. Passwords, API keys, database credentials, and private SSH keys must never be shared through WhatsApp, plain email, screenshots, or unencrypted documents.

Production database access is restricted to authorized technical staff. Direct production changes must be logged with the date, person responsible, purpose, affected tables, and rollback plan.

Client data may not be copied to personal devices unless explicitly authorized for a support or migration task. When test data is needed, the preferred approach is to use anonymized or sandbox data.

Any suspected data breach, wrong recipient email, leaked credential, lost laptop, or unauthorized system access must be reported within 2 hours to the IT administrator and Managing Director.

7.1 Confidentiality Footer

Recommended footer for confidential reports: "Amahoro Tech Services Ltd - Confidential. Shared only with authorized recipients for the stated business purpose."

8. Training and Performance

Each employee is expected to complete at least 20 hours of job-related learning per year. Learning may include internal workshops, online courses, vendor documentation, or supervised project practice.

Performance reviews are conducted twice per year, in June and December. The review considers delivery quality, communication, client feedback, teamwork, documentation, and security discipline.

Employees who lead a training session for other team members may count preparation time and delivery time toward their annual learning hours.

9. Escalation Contacts

Area	Primary Contact	Backup Contact
Technical incidents	IT Administrator	Head of Engineering
Client complaints	Client Success Lead	Managing Director
Expense approvals	Finance Manager	Managing Director
HR and leave	HR Officer	Managing Director
Security incident	IT Administrator	Managing Director

Escalations should include the issue summary, business impact, attempted actions, current owner, and requested decision or support.

10. Known Information Gaps

The following information is intentionally not defined in this knowledge base. A grounded assistant should not invent answers for these topics. Instead, it should say that the information was not found and record the question for admin review.

- Salary bands and compensation formulas are not included.
- Health insurance provider details are not included.
- Travel policy for international trips is not included.
- Detailed disciplinary procedure is not included.
- Procurement vendor list is not included.
- Parking rules for employees are not included.

Appendix A: RAG Testing Instructions

When this document is uploaded into a RAG backend, the assistant should retrieve relevant sections, answer using the document, and cite the document name and page number. If the question asks about a topic listed as a known

information gap or not mentioned anywhere in the document, the assistant should respond that the information is not available in the uploaded documents.

Recommended not-found answer: "I could not find this information in the uploaded documents."
